OBJECTIVE

To apply my Python, Machine Learning, frontend development, UI/UX development and problem-solving skills in a growth-driven technology company to build scalable solutions and continuously improve professionally.

EDUCATIONS / QUALIFICATIONS

Degree	Institute/School	University/ Board	Score	Year
BTech	Baderia Global Institute of Engineering and Management	RGPV	CGPA : 7.75	2023 - Present
Senior Secondary	Saraswati Higher Secondary English Medium School	MPBSE	78.4%	2022 - 23
Secondary	Gyanodaya Children Academy	MPBSE	97%	2020 - 21

PROJECTS & EXPERIENCE

Smart Mail Optimization System (Dec 2025 - Present)

- The system enhances inbox efficiency using AI-driven filtering, prioritization, and automated response management.
- Tools and Technologies used : Python, NLP (spaCy/NLTK), Scikit-learn, FastAPI, React, Gmail API, MySQL, AWS.

AI Powered Youth Mental Wellness Platform (Aug 2025 - Oct 2025)

- AI - ML Based web platform, provide safe, empathetic and accessible support to people dealing with stress, anxiety, depression etc.
- It offers a judgement-free space to: Chat with an AI 24/7, Tracking mood, Engage in guided wellness activities, Mind relaxing music support, etc.
- Tools and Technologies used : Python, AI, ML, HTML/CSS/Tailwind, JS Web-Socket, Flask-work, User Authentication, Spotify, Jupyter notebook.

Educational Community Web-Application | Club Management System (Aug 2025 - Sep 2025)

- Web application for our community with student and admin login, database integration for student tracking, full stack features ensuring smooth UI/UX and role-based access control and secure email verification.
- Tools and Technologies used : Python, HTML/CSS/Tailwind, Web-socket, Flask-work, User-Admin Auth.

Hypertension Prediction Model (Feb 2026 - Mar 2026)

- Built a machine learning model to classify blood pressure risk stages using patient medical inputs and deployed it as a web-based health assessment system.
- Tools and Technologies used: Python, Flask, Scikit-learn, NumPy, Joblib, HTML, CSS.

TECHNICAL SKILLS

- Programming Languages : C/C++, Python
- UI/UX Design
- Tools : Visual Studio Code, Anaconda, MySQL, Git, GitHub, Canva, MS Office

ACHIEVEMENTS / CERTIFICATIONS

- Android Developer Virtual Internship by Google for Developers
- Certificates :
 - Certificate of Virtual Internship - Google for Developers
 - Python Essential I & II - Cisco Networking Academy
 - Microsoft 365 Copilot Badges - Microsoft
 - Git & Github Copilot Badges - Microsoft
 - Networking Basics - Cisco Networking Academy
 - Data Analytics Job Simulation - Deloitte
 - Smart India Hackathon 2025 Institute Level Finalist
 - Gen AI Exchange Hackathon - Hack2skill
 - Digital Applications Fundamentals (STEM) - Future Skills Prime
 - Softskills Training (3P) - Titans Learning
 - Advance AI/ML - Telecom Data Analytics at BSNL - NOKIA

CO-CURRICULAR ACTIVITIES

- Participated in IDE Bootcamp Edition 3 2026 at Gwalior organised by AICTE.
- Participated in CodeSlayer 2k25.
- Participated in Gen AI Exchange Hackathon 2025.
- Institute level finalists in Smart India Hackathon 2025.
- Participated in Code Rumble 2.0 at IIIT-DM Jabalpur (in 2024).

EXTRA-CURRICULAR ACTIVITIES

- | | |
|--|-------------------------|
| • Event & Content Head at SugarCode-Z. | (August 2025 - Present) |
| • School Captain, Gyanodaya Children Academy School. | (2022-23) |
| • Participated in district level chess tournament. | (2021) |
| • Inter-school carrom tournament winner. | (2019) |

STRENGTHS

- Communication
- Time Management
- Teamwork
- Leadership
- Quick Learner
